RE: **Dominion Virginia City Hybrid Energy Center VPDES Permit No. VAR052001**
Five-Day Notification Letter

Dear Mr. Sneed:

The following information is in follow-up to verbal and email notifications made on July 27, 2015 concerning a spill of hydraulic fluid that occurred on that date at our Virginia City Hybrid Energy Center (VCHEC) Power Station.

On Monday, July 27, 2015 at approximately 1410 hours, a hydraulic line on a coal delivery truck failed and approximately 30 gallons of hydraulic fluid were released to the asphalt in a central lane of a 5 lane haul road. The spill was immediately contained and all hydraulic fluid was removed from the pavement and placed in drums for proper, off-site disposal by 1620 hours. None of the hydraulic fluid reached surface waters.

The spill will be appropriately noted in the station's Stormwater Pollution Prevention Plan (SWPPP), and the SWPPP will be reviewed to identify measures to prevent the reoccurrence of such releases and to respond to such releases, and the plan shall be modified where appropriate.

Please contact Ken Roller of my staff at (804) 273-3494 or by email at kenneth.roller@dom.com should you have any questions or require additional information about this transmittal.

I certify under penalty of law that this document and all attachments were prepared under my direction or supervision in accordance with a system designed to assure that qualified personnel properly gather and evaluate the information submitted. Based on my inquiry of the person or persons who manage the system, or those persons directly responsible for gathering the information, the information submitted is, to the best of my knowledge and belief, true, accurate, and complete. I am aware that there are significant penalties for submitting false information, including the possibility of fine and imprisonment for knowing violations.

Sincerely,

A handwritten signature in cursive script that reads "Cathy C. Taylor".
